NOTES	Class Preparation and Review As with any college class, students are expected to study course materials outside of class. For this class, students should read each assigned reading before coming to class. It will take approximately two hours to look up new vocabulary, identify and comprehend the main concepts, answer homework questions, and prepare for each class meeting. Finally, students should spend about one hour before class reviewing their notes from previous classes, writing down any questions they have about the lesson, and doing additional research to prepare for class discussion. In other words, students are expected to spend at least one hour preparing for every hour of lesson, and one hour reviewing and doing Homework. Therefore, because we meet for 90 minutes per week, you should be doing at least 180 minutes preparing and reviewing each week.
