| Course Overview | One of the basic tools of success in the 21st century workplace is the ability to combine | | | | | | |
| | effective verbal presentation skills with practical visual design to facilitate effective | | | | | | |
| | communication in a public-speaking setting. In this course, students will hone their | | | | | | |
| | English public-speaking skills for use in presentations to both small and large groups of | | | | | | |
| | listeners. They will also consider ways in which a visual message may be enhanced in | | | | | | |
| | stand-alone, sequential, and pre-recorded material. | | | | | | |
| | Whenever possible, students will be given the opportunity to create and present their | | | | | | |
| | own materials for self, peer and instructor critique. | | | | | | |
| | While some prior familiarity with presentation software is desirable, time will be spent on | | | | | | |
| | the basics of creating media such as PowerPoint presentations and video compositions. | | | | | | |
| | | | | | | | |
| | Students will: | | | | | | |
| Course Objectives | learn how principles of conceptu | al planning and visual d | esign can enhance the effec- | | | | |
| | tiveness of presentation materials. | | | | | | |

| | examine criteria by which appropriate media, technology and presentation styles may | | | | | |
|--------------|---|--|--------------------------------|--|--|--|
| | be selected to fulfill a variety of needs. | | | | | |
| | plan and deliver short instructional presentations | | | | | |
| | develop a practical familiarity with basic presentation technologies | | | | | |
| | | | | | | |
